WRITTEN STATEMENT OF INTERVIEW

Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. § 1.133 and MPEP § 713, Applicants hereby submit a written statement of the interview conducted December 16, 2003 between Applicants' representatives, David E. Cromer and Burt Magen, and Examiner Naum B. Levin.

Claims 70-81 and 101-122 were discussed. United States Patent No. 6,557,145 ("the '145 patent") was discussed.

Applicants asserted that the '145 patent does not disclose "creating a physical prototype," and "said creating of a physical prototype is performed prior to said creating of said physical design," as recited in claim 101. Applicants further asserted that the '145 patent does not disclose "tracking an error

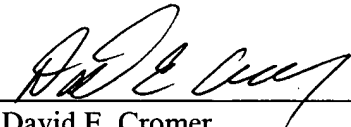

in said predicting of timing,” as also recited in claim 101. The substance of Applicants’ arguments presented during the interview with respect to the ‘145 patent and claim 101 is set forth in Applicants’ Response C dated November 21, 2003. The Examiner maintained his assertion, as set forth in the Office Action dated September 25, 2003, that the ‘145 patent disclosed these limitations of claim 101.

The Examiner submitted that each independent claim would be allowable over the ‘145 patent if amended to include the limitation “wherein generating said sign-off prototype is performed without using a physical design tool,” or “wherein creating said physical prototype is performed without using a physical design tool,” as appropriate. Applicants agreed to an Examiner’s Amendment that would incorporate the appropriate amendment into independent claims 70, 76, 101, 108, 113, and 118. The Examiner’s Amendment dated December 23, 2003 amends each independent claim as agreed during the interview.

Respectfully submitted,

Date: January 14, 2004
